NOBODY COUNTS THE NUMBER OF ADS YOU RUN
THEY JUST REMEMBER THE IMPRESSION YOU MAKE

HUMAN INTERACTION REDEFINED
PRODUCT FEATURES

BE UNIQUE
Don’t be categorized as just another brand, deliver a consistent message that makes you stand out from the competition. Display rich content that brings your products to life with high resolution videos, images, floor plans, maps, panoramic views and 3D models.

INVOLVE THE CUSTOMER
Capture your customer’s attention with interactive experiences that make your content memorable and fun. This warrants that they remember your products for a long time.

SELL SMART
Our software allows you to pull in data from social media (Twitter/Facebook/YouTube) and real time sources such as stock data and current news to appeal to different customer demographics. Show the latest scores from a national sports event or an emergency advisory from your corporate network and make your design dynamic and interesting.

PERSONALIZED AND SIMPLE
Give your customers what they want to see instead of a generic pitch. Our fluid response system reduces customer frustration, and makes sure the customer’s valuable time is yours to direct.
OUR PLATFORM

CONTENT MANAGEMENT SIMPLIFIED

Adding content is simple. Just use our predefined templates and type in the content. Or better yet, have your own creative team design and deploy to the systems. This ensures that both technical and non-technical staff can manage it depending on their expertise.

FLUID CREATIVITY

Our system has been tested with workloads of varying complexity. The user interface is fluid and responsive; Adding more videos or content does not result in bloating the user experience. Creativity is essentially unbounded.
EXTEND POTENTIAL

Our modular architecture allows us to extend the system as needed, rendering us capable of integrating existing infrastructure. Running services on top of our platform for additional functionality e.g. customer feedback, and analytics. Using technologies such as NFC to offer personalized interaction e.g., customer loyalty programs, membership cards etc.

REMOTE MANAGEMENT

Our platform allows for remote content deployment across your various installations at the touch of a button. Give out special promo codes, offers, advisories and messages in real time. Increase usefulness to the customer, and all of this from an intuitive and simple to use interface.
UPGRADE PACKAGES

CONTENT MANAGEMENT SERVICES

Let our design experts make sure that your interactive experience delivers a consistent message in a user friendly and impressive design through our consultation and in-house design services.

MOBILE DEVICE APPLICATION DEVELOPMENT

Employ mobile and tablet apps that complement your core business introducing various services to the customer and adding value to your core business. These apps can be made to integrate with our interactive systems as well as the existing company infrastructure.

WEB PORTAL

An online portal allows customers to have convenient access to your services no matter where they are. The mobile-friendly and responsive design makes it look and perform well on all portable devices.
COMPLIMENTARY SERVICES

INSTALLATION

Our certified technicians ensure that the new systems are smoothly integrated and up-and-running with minimal delays.

MAINTENANCE AND WARRANTY

We provide regular maintenance and warranty services as specified in the service agreement. Warranty and maintenance period can be extended as needed.

TRAINING RESOURCES

Training resources such as articles, video tutorials etc are provided upon purchase of our systems and can also be accessed in our member-exclusive forum to be referred to as necessary.
